CAREER OBJECTIVE

Self-driven and results-oriented Computer Science Engineering undergraduate (graduating 2027) with a cumulative GPA of 9.0/10 and strong knowledge of Data Structures, Algorithms, Object-Oriented Programming, and system design. Proficient in Java, Python, and full-stack development with hands-on experience building scalable applications and intelligent automation systems. Eager to contribute to fast-paced environments through problem-solving, innovation, and continuous learning.

EDUCATION

KL University — Bachelor of Technology in Computer Science and Engineering

Specialization: AI Systems & Visual Intelligence

2023 – 2027

Cumulative GPA: 9.0 / 10.0

Bhashyam Junior College — Intermediate (MPC)

2021 – 2023

Score: 84%

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++

Core CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Network Protocols

Web Development: React, Spring Boot, Node.js, REST API Design

DevOps & Tools: CI/CD, Git, GitHub, Postman, IntelliJ IDEA

Databases: MySQL, SQL Query Optimization

PROJECTS

Budget Planner Web Application — Java, React, Spring Boot, MySQL

- Developed a full-stack financial management system using React, Spring Boot, and MySQL with secure JWT authentication.
- Built REST APIs for income and expense management with analytical dashboards for financial insights.
- Improved application performance through optimized SQL queries and structured backend debugging.

Expense Tracker System — Java, React, Spring Boot, MySQL

- Developed a web-based expense tracker to record, manage, and categorize daily income and expenses.
- Implemented monthly reports, budget tracking, and responsive UI for better financial planning.
- Applied OOP principles and optimized data retrieval for accurate spending analysis.

Human Resource Intelligence, Candidate Matching & Interview Automation — Python, NLP, Machine Learning, React, Spring Boot

- Developed an AI-powered HR platform to automate resume screening, candidate-job matching, and interview evaluation using NLP and Machine Learning.
- Implemented intelligent resume parsing for extracting skills, education, certifications, and experience with automated candidate ranking.
- Built interview automation with real-time feedback, communication analysis, and performance evaluation for data-driven hiring.
- Designed recruiter dashboards for candidate analytics and hiring recommendations, reducing manual HR workload.

INTERNSHIP

UiPath RPA Developer — Virtual Internship

- Completed training in Robotic Process Automation using UiPath and developed automation workflows for business processes.
- Designed sequences, flowcharts, and state machines in UiPath Studio for workflow optimization.
- Gained hands-on experience in web automation, data scraping, exception handling, and debugging.

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) Certification — Oracle
- Automation Anywhere RPA Certification — Automation Anywhere
- Linguaskill English Certification — Cambridge Assessment English

KEY COMPETENCIES

- Strong understanding of Data Structures, Algorithms, and problem-solving techniques.
- Excellent analytical thinking, debugging, and decision-making skills.
- Effective communication and interpersonal skills with adaptability to new technologies.
- Self-driven, detail-oriented, and capable of working in fast-paced environments.
