Career Objective

Aspiring Software Development Engineer with strong **full-stack development skills** and proven **problem-solving abilities**. Seeking an **SDE Intern** role to contribute to **impactful product development** in a high-performance environment. Eager to learn from **challenging real-world projects**, collaborate with **elite engineering teams**, and build **scalable, efficient** systems that solve real problems.

Education

KL University

Bachelor of Technology In Computer Science And Engineering

July 2023 – May 2027

- GPA: **9.03** (as of 4th Sem)

Narayana Junior College

Intermediate - MPC

July 2021 – March 2023

- Percentage: **93.1**

Projects

Online Ticket Booking

[GitHub](#) 

- Built a full-stack web app using ReactJS, Spring Boot, and MySQL for booking tickets to movies, concerts, and sports events.
- Designed a responsive UI for users to browse events, select seats, and make secure payments.
- Developed backend APIs to manage user authentication, event details, and real-time seat availability.
- Built and consumed RESTful APIs to manage events, bookings, and user data efficiently.

Plant Shop E-commerce

[GitHub](#) 

- Developed a responsive e-commerce frontend for a plant store using ReactJS and Vite, ensuring fast load times and a seamless user experience.
- Implemented dynamic product listings with features like category filtering, enhancing user navigation and product discoverability.
- Designed intuitive user interfaces with HTML and CSS, focusing on accessibility and aesthetic appeal.
- Integrated shopping cart functionality, allowing users to add, remove, and manage products efficiently.
